

# 4" PRO-S SPRAY WITH STOP FLOW™

The Stop Flow™ feature stops the flow of water should the nozzle get damaged.

Studies show that one spray without a nozzle wastes up 360 gallons in 15 minutes. Pro-S Spray with Stop Flow™ helps to prevent water waste.

If the nozzle is damaged or removed, water flow immediately stops. Water flow returns when a new Pro-S Spray nozzle with filter basket is inserted.

Other features and benefits of the Pro-S:

- **Co-Molded Wiper Seal** — Ensure a leak-free, full pop-up operation even under low pressure situations. Cartridge design allows for easy removal and cleaning. Treated with UV inhibitors for long life. Seal is microbe resistant to reduce degradation and stick-ups.
- **Ratcheting Riser** — Permits quick, easy alignment of spray pattern
- **Heavy-Duty Retraction Spring** — Strongest spring in the industry for positive retraction in all soil conditions

## Model

78004-SF Pro-S™ 4" Pop-up (10 cm) with Stop Flow™

Stop Flow™ is also available with these other options:

- CV Check Valve
- GUARD Nozzle Guard
- PR30 Pressure Regulator 4" (10 cm) regulates to 30 PSI (2,1 bar)
- PR40 Pressure Regulator 4" (10 cm) regulates to 40 PSI (2,8 bar)
- RCW Reclaimed Water Use

Available only in 4" model
